Our Health and Wellbeing Strategy

Brighton & Hove
City Council

Developing the Strategy

- Health and Wellbeing Board
- Policy Panel inc CVS representation
 - Informed by Joint Strategic Needs Assessment
- Engagement Dec-Jan 2019
- Adopted by Health and Wellbeing Board
March
- Delivery plans by 2020

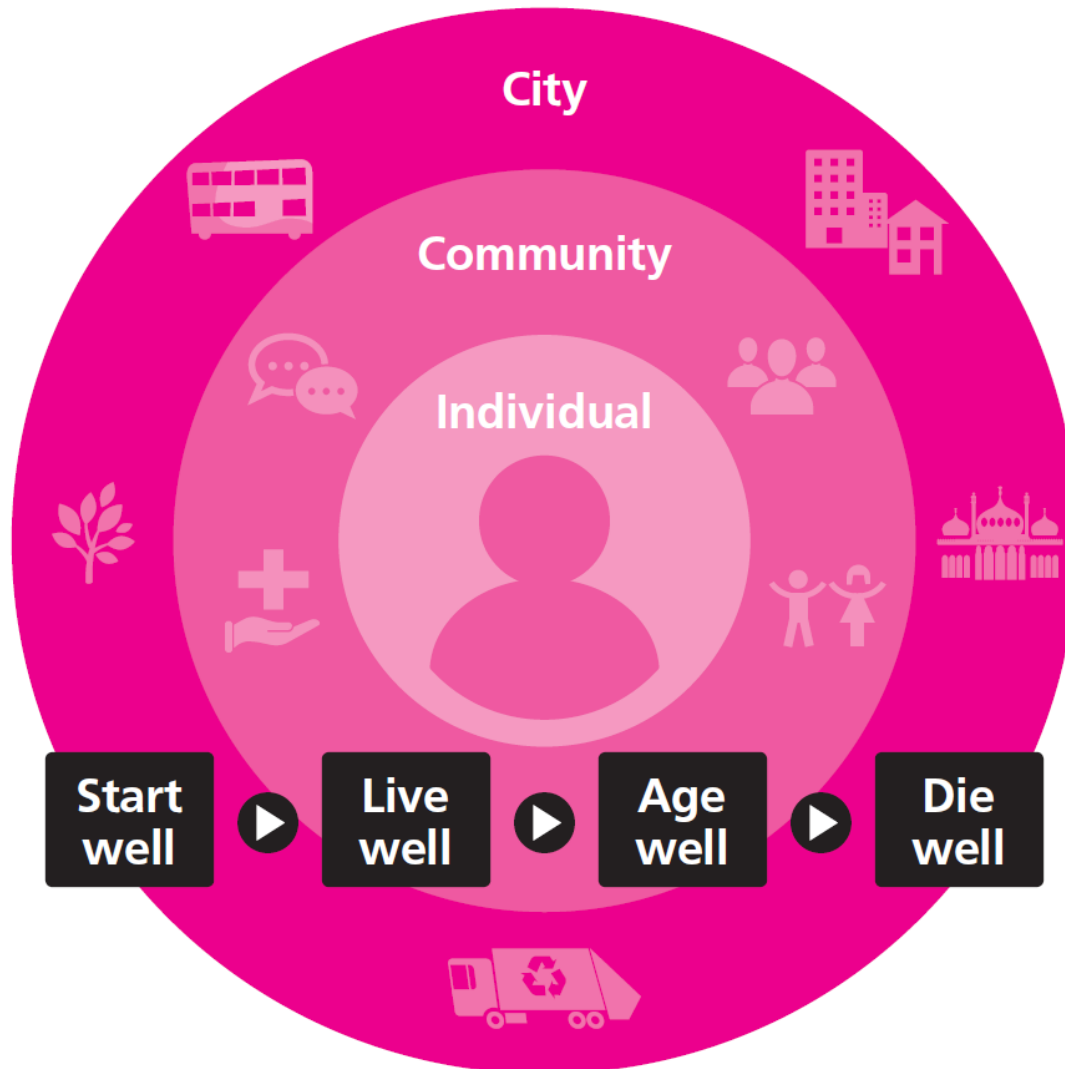

Our vision

- Everyone in Brighton & Hove will have the best opportunity to live a healthy, happy and fulfilling life

Our ambitions

- People will live more years in good health
- The gap in healthy life expectancy between people living in the most and least disadvantaged areas of the city will be reduced.

Our approach: a city where health and wellbeing is everyone's business

Brighton & Hove will be a place which helps people to be healthy.

- The benefits of **economic growth** will be reinvested to support greater levels of inclusion.
- **Planning** of major developments and transport schemes will promote health and wellbeing.
- More people will **travel actively**, and walking and cycling will be prioritised
- **Air quality** will be improved.
- People will be supported to be safe, warm and well in their **homes**.
- The underlying causes of **homelessness** will be tackled.
- A whole city approach to **food and wellbeing** will be adopted
- **Green & open spaces, sports & leisure facilities, libraries and community spaces** will be used to improve wellbeing.
- **Arts and culture** will benefit our health and wellbeing, including within local health and care services.
- People with **caring** responsibilities will be supported.
- Partners across the city will work with local residents to challenge the **normalisation of substance misuse and excessive alcohol consumption**

Starting well

The health and wellbeing of children and young people in Brighton & Hove will be improved.

- A **focus on early years** will maintain our good breastfeeding rates and improve the uptake of childhood immunisation.
- **Healthy lifestyles and resilience** will be promoted, including in school and other education settings.
- Risks to **good emotional health** and wellbeing will be addressed, including parental substance misuse and domestic abuse, and mental health services will be easier to access.
- High quality and joined-up services will consider the **whole family** and services will **intervene early** to provide support to prevent problems escalating.

Living well

The health and wellbeing of working age adults Brighton & Hove will be improved.

- Information, advice and support will be provided to help people to **eat well, move more, drink less and stop smoking**.
- **Mental health and wellbeing** will be improved and easier access to responsive mental health services will be provided.
- **Sexual health** will be improved, including reducing new HIV infections.
- People will receive **support at work** to improve their wellbeing
- People with disabilities and long term conditions, and the long term unemployed, will be **supported into work**.

Ageing well

A place where people can age well

- The contribution that people of all ages make to Brighton & Hove will be nurtured and **celebrated** and we will be both **an age friendly city and a dementia friendly city**.
- The needs of our ageing population will be considered in the design of the **physical environment** and in **planning** new housing developments.
- People will be supported to **reduce loneliness and social isolation** and to reduce their **risk of falls**.
- More people will be helped to **live independently** in the community by services that connect them with their communities.

Dying well

The experiences of those at the end of their life, whatever their age, will be improved.

- A **city wide approach** will be developed to improve health and wellbeing at the end of life and to help communities to develop their own approaches to death, dying, loss and caring.
- More people will **die at home or in the place that they choose.**
- **Support for families, carers and the bereaved** will be enhanced.

Summary

- Prevention
- Life course
 - starting, living, ageing, dying well
 - more years in good health
- Inequalities
- Wider determinants of health (city and communities) as well as individuals

- Strategy links with all Third Sector Commission strategic outcomes

Questions

Brighton and Hove

Decisions based on bid quality

Questions

Brighton and Hove
Clinical Commissioning Group
Part of the Central Sussex Commissioning Alliance

Brighton & Hove
City Council

Bid questions

Please explain how the partnership arrangements will work to deliver your selected outcomes

Bid questions

For the outcomes (other than those that are explicitly linked to the partnership) you have identified, explain what activities you are planning to deliver?

Bid questions

How do you know there is a need for this proposal and what are the issues your proposal will help address?

Bid questions

How will your beneficiaries be involved in developing and running the activities/project?

Bid questions

What difference will the activities you propose make to the people, communities or organisations that will benefit ?

Bid questions

What are the key outcomes these activities will achieve?

Write at least two and no more than four outcomes.

Bid questions

How much difference will your proposal make
and by when?

What will we fund

Strong feedback to include both core costs and project costs: we agree

BUT

Ensure proportionate and provide value for money
